Chicago, October 26.—The feature of wheat market at Chicago to-day was heavy Fuying of the December future New York firm for foreign account. Of the declines established during the few days, this concern probably has be the declines established during the past few days, this concern probably has led in the buying of December, while the selling was done by longs, who looked upon the situation as becoming one-sided, and favoring the bears somewhat because of the recumulating stocks. The more conservative men in the wheat trade here are advising their customers to adhere to the built side of wheat on all setbacks, owing to the fact that foreigners have bought freely of cash and futures, and are in the market daily on a big scale. The December future declined ic, and the break would have been much greater had not strong hands trached out and absorbed the grain. The May was off Sc. and that month was under less selling pressure than the near-by futures.

hands reached out and absorbed the grain. The May was off %c, and that month was under less selling pressure than the near-by futures.

While the cash transactions were openly reported as 1,500,500 bushels in all positions for export, which included 400,000 bushels at Chicago, the actual transactions were doubtless nearly double these figures. Minnapolis millers, seeing that the spring wheat available is being rapidly purchased for shipment abroad, are buying winter wheat for near-by delivery.

News from abroad was mainly bullish. There was considerable in the routine statistics that was considered quite bearish and that heiped to break values. There was an increase in the visible supply of the United States of 3,5%,7% bushels in round numbers.

Corn was sold freely on the dry and coider weather of the morning, but there was some reaction later, when snow and rain set in. Husking returns from many sections of Illinois were unfavorable. Country offerings of corn were light, and the cash business was larger, at 25,500 bushels.

There was a sympathele market in oats, declines for the day being 5,400. The feature of the market was the buying of 70,600 bushels of December by a local broker, supposedly against export sales. Cash transactions were reported at 75,600 bushels. There was a sympathele market in oats, declines for the day being 5,400. To Cure Catarrh **Purify the Blood**

Reason it Out, Where Does it [Metal Start the Mucus From?

Innumerable catarrh sufferers have cured themselves by purifying their blood with S. S. S. Catarrh often invades the entire system before it chokes the masal with S. S. S. Catarrh often invades the entire system before it chokes the nasal passages. It becomes so chronic and extensive that the stomach, liver, kidneys, bronchial tubes and most of the glands are involved without such serious conditions being realized. Catarrh may be the result of some serious blood trouble of former years, and this is only one of the many peculiar effects of impure blood. Now S. S. S., in its influence upon the mucous surfaces, causes those catarrhal secretions to be changed or converted into a substance easily, quickly, and naturally expelled from the body. It so changes this mucos that it is not the ropy, clogging stuff that plugs the uose, chokes the throat, causes severe bowel trouble, upsets the stomach and contaminates the food just entering the blood, it is often difficult to convince catarrh sufferers that chronic congh, chest pains, gagging, fetid breath and other symptoms are only the local evidence of deposeated trouble. Get a bottle of S. S. S. today and try it. You will get good results, real benefit and soon be aware of a gradual cleaning up and a check to the progress and dangers of catarrh. Avoid substitutes, S.
